

## **SAFETY DATA SHEET**

Product name:	mira 4400 multicoat
Intended use:	The product should be used for treatment of surfaces.
Date:	19.02.1998
Revised:	18.07.2005

## 2. Composition/Information on Ingredients:

<u>Ingredient name</u>	<u>Contents %</u>	<u>Classification</u>
Butadien styrencopolymer	50-60	None
Calcium magnesium carbonate	10-20	CAS: 16389-88-1
Barium sulphate	20-30	CAS: 13462-86-7

## 3. Hazards Identification:

None according EC Directive no. 1999/45/EC.

## 4. First Aid Measures:

### Inhalation:

Remove to fresh air. If the symptoms persist, seek medical advice.

### Skin contact:

Wash skin thoroughly with water and soap. After washing use a fat skin lotion. If the symptoms persist, seek medical advice.

### Eye contact:

Irrigate copiously with water for at least 15 minutes. If symptoms persist, seek medical advice.

### Ingestion:

Do not induce vomiting. Drink water or milk and obtain immediate medical attention.

## 5. Fire-Fighting Measures:

The product is not flammable.

If possible, remove product from areas with danger of fire.

## 6. Accidental Release Measures:

Do not allow product to enter drains or water courses.

In case of contaminating the exterior environment contact local authorities.

Contain and collect large amounts of spillage with absorbent materials e.g. sand and earth.

Disposal according to local waste regulations. See also section 8 and 13.

## 7. Handling and Storage:

Avoid skin and eye contact. If skin contact is unavoidable, use protective gloves. See section 8.

If risk of splashes use eye protection.

Make sure of adequate airing.

The product should be stored in closed original container in a cool place.

## 8. Exposure Control/Personal Protection:

The following ingredients have a threshold limit value (TLV):

None

Personal protection recommended, if necessary:

Respiratory protection:

-

Hand protection:

Rubber gloves or PVC

Eye protection:

-

## 9. Physical and Chemical Properties:

Appearance:	Liquid	Solubility-Water:	Soluble
Odour:	-	n-octanol/water coefficient:	-
pH:	8,5 – 9,5	Flash point:	-
Boiling point:	-	Autoignition:	-
Melting point:	-	Explosive properties:	-
Vapour pressure (20°):	-	Viscosity:	-
Relative density:	1,26 kg/l	Other data:	-

-: Means no data or not relevant

## 10. Stability and Reactivity:

Stable.

In case of fire, hazardous decomposition products may be produced (e.g. carbon monoxide).

## **11. Toxicological Information:**

### Inhalation:

The product contains very small amounts of monomers which can cause discomforting odours. In small and poor ventilated rooms these components can irritate the respiratory tract and perhaps cause headache and fatigue.

### Skin contact:

Repeated or prolonged contact can cause irritations and possibly eczema (allergic).

### Eye contact:

Irritating to eyes.

### Ingestion:

Can cause nausea and perhaps vomiting.

## **12. Ecological Information:**

No adequate ecological data to classify the components according to environment.

## **13. Disposal Considerations:**

Product disposal according to national regulations.  
Transportation as waste: see also section 14.

## **14. Transport Information:**

The product is not considered dangerous goods during transportation.

## **15. Regulatory Information:**

Danger label on container (product classification):

The product is not classified as hazardous according to EEC regulations.

Application limitation: None

Special education/training requirements: None

## **16. Other Information**

None
